Pertinent Topic Discussed by H.C.

France is now alarmed over Italian pretensions to full dominion over Ethiopia. French statesmen did not know Mussolini if they thought he would take less than he could get.

General Hertzog is right. Because Italy's aggression was successful is all the more reason why sanctions should be continued. Decreases in imports and exports showed that the imposition of commercial sanctions has had a severe effect. If sanctions are continued, Italy's victory will be dearly bought. Anyway, that country should be treated as an outlaw.

It's funny what a fuss we make about new taxes and how quickly we become used to them, the result of a long and varied experience.

If Italy stays in the League, the League will have to recognize the new Italian Ethiopia and raise its sanctions. It is a bitter pill for a League that denounced Italy as the aggressor.

Another problem for the League will arise out of the Leftist character of the new Chamber of Deputies in France. It is of great concern to Britain in particular. Political conditions in France may not be worse than they were, but the element of uncertainty will continue to try the nerves of British statesmen and diplomats in their efforts to maintain the alliance.

Dean Inge said the Bolsheviks are against Christianity not because they don't understand it but because they do. It remains for Mr. Abernethy to say that those who oppose Social Credit do so not because they understand it but because they don't.

Italy went wild with enthusiasm over the victory at Addis Ababa. We cannot imagine the negro population of America going wild with enthusiasm if Joe Louis licked a white fourteen-year-old school boy who had never been trained in the manly art of self-defence.

The Calgary Herald points out that an individual who wants to buy a Bible has to pay sales tax. That's pretty tough, but the transient staying at our hotels need not worry. He can learn something of tax-gatherers by perusing a Gideon unless in the meantime it has been purloined by a tax-dodger.

We commented some time ago on the phenomenon of a British government fresh from the country with a large majority having to back down on the Hoare-Laval agreement because the people rose and said "No, you don't." We thought then and still

(Continued on Inside Page)

ADDRESSES YOUTH

Dave H. Elton, K. C.

Mayor of the city of Lethbridge, who addressed a large audience in the United church, Vulcan, Friday, May 22nd on the problems of youth. The great problem of youth, he said, was the adjustment to the situation that presented itself in times of stress. Avenues that were open to youth a few years ago have now closed. His address was an inspiration to young and old alike.

Mayor Elton Delivers Message Young People

Inspirational Address Delivered in Vulcan United Church Friday Evening Tells of Four Dangerous "Drugs" That All Must Avoid

Under auspices of the Vulcan branch of the Canadian Legion, D. H. Elton, K.C., Mayor of the City of Lethbridge, addressed a well attended meeting on the problems of youth in the United church, Vulcan, Friday evening, May 22nd. His talk was an inspirational one to both the young people and the older folks. W. E. Butchart was chairman for the occasion, introducing the speaker and announcing several selections played by the Vulcan high school orchestra under the direction of R. H. Weale.

Speaker Elton, in opening his address, claimed that youth was a state of mind and not the matter of age. We all must move with the times. If, from the age of 45 years, one's curve of efficiency was upward, there was much hope for the future, but if the curve of efficiency was downward there was no hope whatever. Mr. Elton cited the things essential for remaining young.

The great problem of youth today is the adjustment to the times through which we are passing, said the speaker. They discover that avenues open a few years ago to students graduating from school are now closed. They must adjust themselves to the times. Adults could assist in this matter by breaking down the barrier between youth and age, he explained, asking the adults to live in a youthful atmosphere by talking with the children, not at them. Youth should find no gulf between themselves and persons of more experience.

Mayor Elton then warned the young people and older folks, too, against four dangerous "drugs." Not drugs such as chemists dispense but "drugs" just as dangerous to the development of the mind and body, he explained. Public enemy number one was the worry "drug" and most of us take it in big doses. It is a sedative "drug." Worry hampers everyone's possibilities and must be avoided.

The second "drug" is that of hurry. It is a mean stimulant, said Mayor Elton, another thing to avoid. He spoke of the accidents that happen every day as a result of the use of this dangerous "drug." In continuing, he cited the drift "drug" as another sedative, being tricky and insidious. The shores of life are strewn with human driftwood showing the use of much of this "drug." It took faith, executive judgment and ability to overcome this sedative. There are the lifters and the leaners, he said, in explanation that leaders are made not born. One must be of service to mankind to know the joy in giving. Life must have its outlet as well as inlet to avoid drifting.

The last "drug" of which Mr. Elton spoke, was the drop "drug" a dope that made you rest on your laurels. It made one soft and mushy on the outside and hard and intolerant on the inside, he said. In concluding his message, Mr. Elton told the young people that there was only one path to follow in face of discouragement—the path straight ahead. He emphasized the need of faith.

The address was delivered in Mayor Elton's imitable style, a style that borders between prose and poetry. The message was received with enthusiastic applause.

A feature of the evening was the musical entertainment provided by the Vulcan high school orchestra, before and following the lecture. The orchestra played selections that won them two festival contests. All selections were well received.

FOOTHILLS BASEBALL LEAGUE OPENS AT VULCAN FRIDAY

Vulcan ball players will open the schedule of the Foothills Baseball League on home grounds this Friday. On Friday evening the locals will play Arrowwood at the Vulcan sports park. Vulcan gave a splendid exhibition on Monday and should receive the support of every fan in town. Most of the players are High Schoolers, new at the game but know how to play ball. They need encouragement that support by attendance only will give.

GUEST SPEAKER

Robert Barrowman

President of the Lethbridge Board of Trade, who was guest speaker at the general meeting of the Vulcan Board of Trade this Thursday evening. He headed the delegation from Lethbridge that discussed the hard-surfacing of the Sunshine trail from Lethbridge to Calgary via Vulcan and Carseland. Delegations from all points and municipalities on the highway attended the meeting.

Program Athletic Sports Entertaining

Pole Vaulting and High Jumping Feature Displays by Athletes; Races for Children of All Ages from 4 to 18

Races were provided for children of all ages from four to eighteen at the Elks' celebration during Monday afternoon. Both boys and girls had separate races in age groups 4 to 6 years, 6 to 9 years, 9 to 12 years, 12 to 15 years, 16 to 18 years and open races over 18 years. Prize winners were numerous and a complete list is too lengthy for publication. Sufficient to say that the prizes were well distributed, all winners receiving tickets that could be cashed-in for treats at the refreshment booths. Six tickets were given first place winners, four to second place and three to third place winners.

Races by older entrants were well contested. Miss Jean Martin won the girls' race, 18 years and under. Harold Woodward won the 100 yard races for boys, 16 years and under. John Hughes of Stavely won the 100 yard race, 18 years and under, and also won the men's open race.

Entrants in the high jumping contest were many. All gave splendid exhibitions that received hearty applause from the spectators. Clair Recor won the boys' competition, 15 years and under. Leslie Warden and Ralph Clark were tied for second position. H. Woodward and H. Martin tied in the boys' high jump, 15 to 18 years. Miss M. Ulrich won first in the girls' event, with Miss Jean Martin a close second.

Many fine exhibitions were given. A. Allred, who won the men's open event, gave several exhibition jumps that provided many thrills for the spectators. Don Ulrich came second in the open event. Prizes for pole vaulting for boys 15 years and under were won by outsiders.

Track Races Entertaining

Race track events were all well contested and entertaining. The Bennett buggy race provided many thrills. This event was won by Hank Willard's team. The team entered by Ole Willard was awarded second place. No entries were present for the Hoadley buggy race and the event was cancelled. Wm. Gooch won the school pony race with his entry, young Berquist's mount coming in second place. The entries were many for the bicycle race. This race was won by Bud Robinson. Bill Monkman came in second and Verne Parsons third. All entries in the slow automobile race were disqualified.

Vulcan Ball Club Open Season With Tournament Win

Defeat Champion 8-7 in Final Event; Champion Gain Final Position by Defeating Stavely 10-6

Decked out in their new uniforms, the Vulcan baseball team won honors for the home-town in the baseball tournament at the Elks' annual celebration, May 25th. In the two-game tournament the locals drew a bye and the Champion and Stavely teams played in the opening event of the afternoon. Champion defeated Stavely 10-6 and Vulcan won the honors by defeating the winner 8-7.

Champion 10-6 Stavely 6

Both games were excellent exhibitions of baseball. In the first, that veteran "Slim" Haynes was in the pitcher's box for Stavely. Stavely opened the scoring in the second inning by chalking up four runs. Champion went on a merry-go-round in the fourth, taking the lead by scoring five runs. The next three innings were scoreless. In the last half of the seventh inning Beatty replaced Haynes in the box. In the first of the eighth, Stavely again took the lead by one run, scoring two. But the last of the ninth was the deciding turn in the game. With numerous errors in fielding, the Stavely team let the Champion boys tour the bases five times. With Stavely up first in ninth, Walker replaced Hicks in the box. All Stavely players fielded out and the game was over.

Stavely—Battery: Haynes (Beatty) and Rae; McInnes, Yorko. Beatty, McDonald, O'Connor, Brock.

Champion—Battery: Hicks (Walker) and Hargraves; A. Latiff, F. Bouyzan, Bester, Kalpas, R. Latiff, Walker, Watts.

Stavely 040 000 020—6
Champion 000 500 05X—10
Umpire: Hugh Lee; base umpire: Shorty Vaughn.

Vulcan 8—Champion 7

For the local fans, the second baseball fixture was the treat of the day. It was a nip and tuck affair with the score tied at the last half of the ninth inning. Bill Recor, catcher for many years on Vulcan teams, was the star of the twilight fixture, batting two home-runs to account for six of the tallies for the locals. Doug Allred in the pitcher's box accounted for eighteen strike-outs and was in splendid form. Walker, pitching for Champion, struck-out eleven Vulcan batters.

The locals opened the scoring in the first inning with four runs. Recor turning in the old hat trick for his first home run of the game. Champion scored twice in the first and took the lead in the third inning by circling the bases four times. No runs were registered again until the lucky seventh. With two men on bases, Recor won the applause of the gallery by socking a liner to centre field for his second home of the game. This gave Vulcan a lead of one run. In the first of the ninth frame Champion tied things up when they scored.

When Vulcan came to bat in the last half of the ninth it needed a score to win. With one man on the second base, Fred Craig came to the front with a high one that went to centre field and looked like another home run. The base runner scored; the Champion players walked off the field; the game was over. It was a neat first win for the opening of the season and the fans were highly pleased.

Champion—Battery: Walker and Hargraves; C. Latiff, Bouyzan, Rhodes, Kalpas, R. Latiff, Watts, H. Bastin. Hamilton batted for A. Latiff in first half of the ninth inning.

Vulcan—Battery: D. Allred and Recor; Clark, Ulrich, Craig, Lunggren, Deman, C. Fulton, A. Allred.

Umpire: Joe Gerding. Base umpire: Hugh Lee.

Champion 204 000 001—7
Vulcan 400 000 301—8

A dance was held in the Canadian Legion Memorial hall on Friday evening, following the lecture delivered by Mayor Elton of Lethbridge. The Doney brothers orchestra provided the dance music. A good number attended and enjoyed a pleasant evening.

Victoria Day Holiday Celebrated at Vulcan

Ideal Weather for Annual Celebration Under Auspices of Vulcan Elks' Lodge; Many Entertaining Features For Large Attending Crowd

Victoria day holiday, May 25th, was celebrated in Vulcan with many entertaining sport features under auspices of the Vulcan Elks' Lodge. It was a fitting feature to usher in the use of Vulcan's new baseball and sport park. Coupled with the excellent sports fare was the ideal weather. Right in temperature with sunshine all day, with no wind or dust and no rain, the day was perfect without a doubt. Over 1,000 attended the event. Automobiles were packed around the semi-circle of the baseball diamond, laden with passengers and all seating room on the bleachers was taken. The sponsors were well pleased with the financial result of the day. Business was brisk at the refreshment stands and the Odd Fellows' hall was packed for the grand finale of the day, a dance.

All who attended the sports events were greatly pleased with the offerings. The baseball games, two in number, presented some excellent first-season fare for the fans. Stavely lost out to Champion in the first game 10-6. In the twilight fixture, Vulcan defeated their old rivals of the diamond, Champion. The last was a nip and tuck affair with Vulcan gaining the top point in the last of the ninth inning to win 8-7.

It was Vulcan's day for winning. The Vulcan softball team carried off the first prize in the softball tournament. They defeated the Buffalo Hills team 9-2 in the opening game and Ensign 16-5 in the final.

The brand of athletic sports was good. The children's races were watched by a large crowd that lined both sides of the track. The pole vaulting and high jumping entrants gave some fine exhibitions in the art and received good hands from the crowd.

The Bennett buggy race, school children pony race and bicycle race provided thrills for those in attendance.

Good cash prizes were awarded winners in all the main events. The children received tickets in the form of prizes that entitled the holders to treats at the refreshment booths.

During the afternoon the Vulcan Citizen's band under the leadership of R. H. Weale played a varied program of march music and selections.

All events on the program are reported under different headings in the news columns this week.

Mr. and Mrs. Dignan Tendered Reception

In honor of Mr. and Mrs. Roy Dignan, about thirty guests were entertained at the home of Mr. and Mrs. Fred Graham on Wednesday evening, May 20th. The hostesses were Mrs. Fred Graham, Mrs. Elmer Graham, Mrs. Clifford Graham and Mrs. Russell Graham.

A pleasing program was arranged consisting of piano numbers by Miss Tuttle, vocal solos by Miss Jean Warden accompanied by Mrs. Hansell, and a reading by Mrs. D. Kantzie. Mr. J. Deans and Rev. Hansell, M.P., gave the newly-weds some good advice on how to avoid some of the pitfalls of married life and extended to them the best wishes of those present. Contests followed.

A buffet supper was served by Mrs. Graham and Mrs. Jantzie pouring tea and coffee, at a table attractively decorated with pink carnations and tall pink tapers.

All joined in singing a few old favorite songs, after which Mr. Dignan thanked the friends for their good wishes. Auld Lang Syne brought a pleasant evening to a close.

Whitsunday falls this year on the last day of May, and being the fifth Sunday in the month. Services in St. Aldhelm's church will be at 8.30 and 7.30 with Holy Communion at St. John's church, Lomond, at 11 a.m., when the discourse will be on "Birth-day celebrations." Evensong at Vulcan will bring to mind "A Way of Understanding."

VULCAN VISITOR

HON. N. E. TANNER

Speaker of the House and representative for the Cardston constituency, in the Alberta Legislature Assembly, who accompanied Peter Dawson, M.L.A., on a tour of the Little Bow constituency this week. He addressed Vulcan electors Wednesday evening. He spoke on the sales tax, issuing and controlling of credit, default of Alberta bonds, the refunding bill and better debt adjustment.

School Track Meet Slated for June 6th

Aldersyde Branch School Sports Association Organize at Champion Tuesday; Choose Vulcan for Annual Event

(Special to The Advocate)

At the organization meeting of the Aldersyde branch of the Schools' Sport Association, held in Champion Tuesday evening, W. L. Irvine of Vulcan was elected president and D. A. Allred of Vulcan was elected secretary-treasurer. The association selected Vulcan as the place to stage the annual track meet and set the date for Saturday, June 6th. The program will commence at 1 p.m. Regulations arranged call that entries be open to the school registers of schools on the Aldersyde-Kipp branch of the railway. Entries are limited to three from each school in each event.

Silver Cup for Individual Points

This year silver cups are being awarded to the girl and to the boy obtaining the largest number of points in the various competitions. The events have been divided into different classes for competition. The various classes are: "A," 12 years and under, "B," 13 and 14 years, "C," 15 and 16 years, and "D," 17 years and over. The program of events for girls includes all classes. It is as follows: 75-yard dash, high jump, basketball throw, running hop-step-jump, baseball throw, running broad jump and a relay race with one team from each school (400 yards).

Boys' events will include a 100-yard dash, running hop-step-jump, running broad jump, high jump, pole vaulting, shot put for all classes of entrants. There will be a 200-yard dash for classes "A" and "B," and a one-half mile race for classes "C" and "D." There will also be a 400-yard relay race for the boys with one team allowed entrance from every school.

The track meet is being held in the new Vulcan sports park. To meet expenses, the association will operate a hot-dog, ice cream and "pop" stands.

J. D. Dobbs and L. H. Greene of Vulcan and Joe McKie of Carmangay will attend the annual convention of the Alberta Elks' association at Lethbridge, Monday and Tuesday, June 1 and 2, as delegates from Vulcan lodge No. 121, B.P.O.E.

PRINTING Is PRINTING!

Rather an odd expression, but one filled with a wealth of meaning.

In these days when substitutions are being advertised at cheaper rates than those for which real Printing can be done, one should stop to consider, before placing an order, if such substitution in its finished product will look well and reflect to advantage on one's business.

PRINTING

is in a class by itself and nothing in the form of a cheap substitution can be compared with it. You get exactly what you pay for—no more and no less. If you want good printing, let the Advocate do it.

HARD-SURFACED HIGHWAY

It is quite natural and quite proper that towns along the hard-surfaced highway connecting the boundary with northern parts of the province is merely a proposal as yet. It is one of the immediate necessities if Alberta is to raise a beckoning hand to Southern tourists. Before we can honestly publicize our parks and other attractions, we must first ensure comfortable and easy access.

Within recent date the major discussion seems to have centred on the routing of this "proposed" road, and each area in Southern Alberta is presenting its claims, all of which no doubt have merit. There should be little difficulty in learning through which border point the heaviest tourist traffic comes, and that is a factor to be considered. One suggestion is a route from Coutts, through Lethbridge to Macleod, and thence along Number One Highway. Another proposal would start the road at Carway, ignoring Coutts and Lethbridge. Still another proposal is the Coutts-Lethbridge-Carleton Place road, and there are others who advise a direct route from Coutts and Lethbridge ways from this would link the towns of Vulcan, Champion, High River, Claresholm, etc., with the hard-surfaced road through Barons and Blackie to Calgary. Secondary high-ways which justify their petitions for consideration. But in the welter of neighborhood argument, it will never do to lose sight of the main object—that a road be built.

It will take courage and good judgment to make the final decision on the route, but if every phase and every argument is weighed impartially, there should be no dissatisfaction in the final choice.

One angle which makes the realization of such a road probable, is the interest of the Dominion government. The national parks can be real revenue producers, and several of the most beautiful and widely known are in Alberta. So it is of Dominion interest to provide pleasant access by way of good roads. The little towns which may be along the route are incidental to the main scheme.

EDUCATIONAL CHANGES

The changes in the educational course, which are forecast for introduction next September, received a great amount of attention at the Teachers' convention. The public has long been clamoring for a revision of the school curriculum, and that revision is at hand. Just how revolutionary the changes may be, is not yet clear either to teachers or parents, nor can results be definitely proclaimed. Not for some years will the success of the contemplated changes be assured. For this reason the public would be wise to withhold sudden judgment. It is known that what is being undertaken is upon the advice of educationists, and after all, educationists should know something of the purpose and methods of education.

One change which seems to meet with general approval is the division of the usual twelve year educational course, into three parts; instead of the two provided at present under public and high schools. Grades one to six will be elementary; grades seven, eight and nine intermediate; and grades ten, eleven and twelve, high school. It is realized that quite a proportion of the students entering high school at present, neither desire nor intend to continue along the course for which the high schools provide training. They have no fixed aim in completing the course, and are in a sense marking time until of age to secure jobs, if jobs are available. This is a hardship on the teachers and on the more "school-minded" students.

The educational requirements and ambitions of such students would be satisfied by the Intermediate school. They would be awarded their certificate of graduation which would give them a definite educational standard that the present system lacks. It is hoped that the training of the Intermediate school would be of a more general purpose nature, and more complete within its limitations than under the present system.

Educational leaders also point out that the new curriculum lays emphasis on individuality. Personal qualities and background would be recorded through the grades, with the view to determining the child's aptitudes and possibilities. The proposed enterprise method of teaching is a part of this build up toward the end of developing initiative in outlook and action.

Truth

The greatest third party risk is a parson.

A friend in need is a friend to be avoided.

A man may look his age—but a woman overlooks hers.

Thirty is a nice age for a woman, especially if she is forty.

Can we describe traffic policemen as the halt of the earth?

The man who tells us our own faults may be our best friend, but not for long.

Most motor-cars are paid for as they're used, but not so rapidly.

Some people's vein of humor would appear to be slightly varicose.

A clever man can always tell a woman's age—a wise one never does.

Most married men would go out at night if they hadn't to come home again.

Luck may be a good servant, but as his master's pay days are very uncertain.

The wallpaper hanger finds business good when it drives him to the wall.

Impossible To Please the Farmers

This incident happened almost 50 years ago in Ireland.

A class was being instructed for confirmation in the Catholic school. I was one of the class. Came the day for the final examination, which was conducted by a representative of the bishop of the diocese, who was questioning the class, viz.:

Q.—"Who made you?"

A.—"God."

Q.—"Why did God make you?"

A.—"To know Him, love Him," etc.

Q.—"Can God do everything?"

With one exception the class answered "Yes."

The good old priest was horrified to find this one dissenter and he asked her: "Mary, what can God not do?"

And the answer came back quick as a flash: "Father, He cannot please the farmers."—New York Sun.

The \$25,000 milk condensery plant at Red Deer has commenced.

CANADA'S POPULATION

A most fascinating study is the mass of statistical information contained in the official year book of Canada published by the Dominion Bureau of Statistics.

Under the columns of birthplaces of the 10,376,876 people in Canada, there is the following information which is somewhat surprising taken from 1931 census. Of these, 8,069,261 are Canadian-born. That should give a better balance of power than one would think. There are 1,184,890 British-born; 344,874 American-born; 778,121 born in other foreign countries. Or going by percentages, over 77 per cent. of the population is Canadian born; 11 per cent is of British birth; 3.3 per cent. of American birth and 7.5 per cent. of other foreign birth.

It is natural that a great many of those born outside of Canada should still hold the land of their birth as their first love. This attitude and feeling is more pronounced amongst some people than others. There are some immigrants that idealize old scenes and old customs, preferring them to those of Canada, and not particularly courteous in expressing opinion. They give the impression of being merely sojourners with us, their longing eyes turned ever backward to another land. There are other peoples who have come to make their home and their living in Canada and from the day they entered our borders, have set themselves to adopt the ways of this country and to help in all good citizenship. Although not born in Canada, they have played their part as makers of Canada.

With the reduced immigration of later years, the 1936 census will probably show a greater proportion of Canadian born, per total population, and that should mean an increasingly Canadian viewpoint as the generations roll round. Even as it is, we are very given to referring to our mixed population, magnifying in our minds the proportion of people of foreign extraction. As pointed out in 1931, our foreign born population was only 7.5 and our American born population which one scarcely thinks of as foreign was 3.3 per cent.

"PICK CANADA" SAYS COBB

Speaking of publicity for Canada, what could be a bigger boost than the words of Irvin Cobb, written in the Red Book magazine.

"Canada—taking it by and large—and looking at the map, you'll see it is powerfully large, is the one unspoiled national playground left, north of Mexico, on this hemisphere."

"Across the line in Canada, you have only to step out of the front door and there invite the peace which passes all understanding; there enjoy woodland glories which are unsullied, and so beautiful as to pass the power of human description. I know, because I have done it."

"Yet I only ventured along the verges of this incredible domain of Nature. On beyond where I went are thousands of perfect lakes which no white man's eyes have yet seen—countless miles of leaping rapids that only the fishes know—great snow-capped peaks unnamed and unmapped—fastnesses and meadows and estuaries testifying to the perfection of the celestial scheme."

"If you would hunt or explore, angle or loaf, tramp or just sit, motor or hike, paddle or pole, take a tip from one who has tried them all, and pick Canada for your vacationing."

IT'S SO SENSELESS

This modern world is a strange series of contradictions. Recently the Hindenburg completed the first return air voyage, with a full passenger list, between Friedrichshafen, Germany, and New York, U.S.A. A great forward step in the civilization of the world, this shortening of the lines of communication and intercourse between two great nations, exulted the press.

Recently, also, Italy completed the conquest of Ethiopia. Said some newspapers: This seizure of a defenceless, peaceful nation by the brutal force of arms has set back the clock of the world's progress towards international peace and understanding. If Italy's action is countenanced, Today, millions of dollars are being spent in search for a means of reducing the yearly death toll of that dread disease, cancer.

Today, millions of dollars—hundreds of millions of dollars—are being spent annually in increasing the ghastly efficiency of the already powerful armies, navies and air forces of the world. The next war, pessimists predict, will be a holocaust with Death reaping the greatest harvest of his history.

What fools these mortals be! And how the gods must laugh—with pity—as they watch man, homo sapiens, the thinker, countering every forward step with a backward one.—Kamloops Sentinel.

REQUIEM

When you light the evening lamp—You Pay A Tax;
When you buy a postage stamp—You Pay A Tax;
When you buy the baby clothes,
When you read the morning news,
When you buy a pair of shoes—You Pay A Tax.
When you buy an ice cream cone—You Pay A Tax;
For the water that you drink—You Pay A Tax;
When you buy a loaf of bread,
When the doctor says you're dead,
When the final prayers are said—You Pay A Tax.

Here and There

Motor Fatalities

In 1935 no fewer than 501 people were killed by motors on the highways of Ontario. If one solitary person was lost by crashing from an airplane, or was floating outward on a block of ice, frantic efforts would be made to rescue the imperilled person. But lives on the highways don't seem to be of much value.—Goderich Star.

Drying Up the Drunks

The drunken driver and his automobile still persist in endangering the highways despite threats of dire punishment or efforts to fill him, through education, with the fear of inevitable and maiming accident. Some of the oil companies have conceived the idea that drunken drivers who want to go places can be stopped before they get anywhere. They have ordered employees in their filling stations not to sell gasoline to inebriated drivers. Obviously this procedure will not reach the man who already has a tank full of gasoline when he acquires a skin full of alcohol. But it is a step in the right direction.—Cranbrook Courier.

**CANADIAN
PACIFIC****BERRYWATER U. F. W. A.
MONTHLY MEETING**

An interesting meeting of the Berrywater U.F.W.A. was held at the home of Mrs. F. J. Mensinger, Wednesday, May 13th, with ten members and seven visitors present. The meeting opened with the singing of Mother Machree. After business was dealt with, a sketch of Kagawa's was given by Mrs. Donald Sinclair. The roll call was answered by current events.

Mrs. Grace Mensinger gave a demonstration of decorating bottles and jars for flower vases. Many gayly colored specimens, rivaling the patchwork quilt as souvenirs of former summers, were on display at the close of this most interesting demonstration.

During the serving of a delicious luncheon, a sack of seed potatoes was raffled. Elwood Mensinger drew the ticket, Lloyd Adair being the winner.

Mrs. Viola Mensinger donated a fancy apron and cup and saucer. Bobby Healy and Harold Mensinger drew for these prizes. Mrs. Ross Walker won the apron and Mrs. Alex. McIntyre the cup and saucer.

The next meeting of the Berrywater U.F.W.A. will be held at the home of Mrs. Clifford Love on Wednesday, May 27th. Mrs. Harry Douglass is donating an article for raffle for this meeting. A social evening will be held at the home of Mr. and Mrs. Harry Douglass on Saturday, June 6th. The kind invitation of Mrs. (Rev.) P. G. McPherson to her home for a meeting was accepted and will be held Tuesday afternoon, June 9th.

**Don't Condemn Too Quickly
(Guelph Mercury)**

To ask a young man to give up his life for something bigger and better than himself is one thing; to ask him to do it so that some TNT magnate or armor plate peddler can reap a 60 per cent. dividend, is something quite different. It's not exactly surprising, if college youth choked on it.

NEWS FROM ALSTON DISTRICT

Jack Middleton is spending a few days in Calgary this week.

George and Stewart Galbraith visited with his brother, H. Galbraith, at Nanton last week.

A dance under auspices of the Rebekah lodge will be held in the Alston community hall on May 29th.

Do not forget the amateur night at the Alston community hall on the night of June 12th. Liberal prizes.

Several new tractors have made the Alston community almost entirely horseless. A shortage of teams may be felt when threshing starts this fall.

Several people from the Alston district journeyed to Nanton to attend the Social Credit convention, braving bad roads, only to find that the convention had been postponed. The heavy rains made up for any disappointment. 2.04 inches of rain were recorded by the rain glass.

Should It Be Suppressed

There has appeared on the screen in England a film calculated to drive home the "horrors of war" which quotes the common man in opposition to war. Such an impression has the picture made in opposition to war that the Marquis of Crewe, movie censor, has banned the film in the fear that it may prevent enlistment. The attempt at suppression has aroused public resentment led by H. G. Wells who declares that "it would be outrageous if a film of such importance were suppressed."

If the film in its portrayal of war is faithful to fact and an unfettered presentation of it there need be no shrinking from the accuracy of it. No doubt behind the censor is the shadow of the munition makers who do not hesitate to wade through the blood of their fellow countrymen in order to rake in huge profits. It is surely not against British law to protest against war by either speech or screen.—Milverton Star.

**Pertinent Topics
Discussed by H.C.**

(Continued from Front Page)

think the people were right. It seemed so wrong that Italy should be rewarded rather than punished for its war of aggression. As it has turned out, she will now get far more territory than the Hoare-Laval agreement gave her. The League of Nations broke when it balked from sanctions on oil, lead and iron. For this failure, France is largely to blame. Fascist influence over many newspapers and politicians in that country scared the government. Yet in the recent elections the French Fascists elected very few deputies, but in the meantime their agitation had done its deadly work.

Sir Samuel Hoare has been vindicated. He lost his place in the Cabinet by reason of that agreement, but he will probably be recalled. He feared Italy's threat of war and knew the League would not advance against that threat. He knew what influences were at work in France to prevent the Ministry from taking a decisive stand against Italy, and so he signed the agreement to compromise with the ruffian. It is an awful commentary on world opinion that a megalomaniac like Mussolini should have been able to flout that opinion and bluff almost the whole of Europe. For bluff it was. Puffed up as he is with his own ego, he cannot possibly have thought his country could stand against the powers that would be arrayed against him.

Queer proposals are outlined in despatches from Edmonton as having government approval. A road-work programme which will take up some slack in the unemployment figures, the wages to be paid in certificates, or scrip, is one. The worker would take this scrip, expecting his landlord or landlady, his grocer or butcher to accept it as payment of rent, or board or groceries or meat. They in turn would expect to be able to pay their bills with the same paper. They would expect their banks to accept them as addition to their credit balances. If accepted, what would or could the banks do with them? This proposal, if put into effect, would open an avenue into all sorts of interesting possibilities.

During the financial stringency of 1907, some American banks did what the government for caucus suggest doing in Alberta now. They issued unauthorized scrip. Fortunately for them the slump lasted only a few months and the banks were then able to redeem that scrip. It was an offence against the law for which the bankers could have been sent to penitentiary. The federal authorities winked at this violation of their currency laws, and the redemption of the certificates, saved the offenders from punishment. One cannot drink milk tickets but they will produce the milk if someone pays for them.

Another proposal is to abolish interest within the province, or to cut

the principal in two and pay interest on half. Either would be popular with debtors, but unpopular with creditors. The suggestion has the approval of the government caucus and will probably be drafted in a bill next Session. It is stated that this will apply only to old debts, but even then it will affect new ones by making them difficult to negotiate. Interest has been defined as a reward for self-denial, that is to say the man who has the money denies himself the immediate use of it by lending it to others. He will not be disposed to exercise that self-denial without reward of some sort. If he cannot get it here, he will try to get it elsewhere.

The abolition of interest or arbitrary cancellation of half the principal is about as effectual a scheme as can be devised for putting a stop to the business of lending and borrowing. If it were to apply to public as well as private debts it would leave the government with only one way of raising revenue, viz. taxes. This might not be any great disadvantage in the long run for no government cares to make additional levies or increase present levies. Governments would then be coerced into economy. The individual, however, cannot resort to that expedient legally. If he needs financial assistance, he will have to do without it or take illegal measures to get it and then the government which placed that alternative before him will have to prosecute him.

The funny thing is that men who would object strenuously if deprived of their wages think well of a proposal to deprive men of interest which is wages earned by the money they have saved from their wages. They think that interest is drawn exclusively by wealthy men. The fact is that many wealthy men pay interest and that many people who are not wealthy depend for their livelihood on the interest they derive from small loans and mortgages.

The federal sales tax has been increased from six to eight per cent, but thank the Lord it will be cut in half when election year comes 'round.

Eight per cent. federal sales tax plus two per cent. provincial sales tax is ten per cent. sales tax in Alberta. We are strong on addition through long practice, but weak on subtraction because we had had little practice in that element of arithmetic.

Increase of employment through those taxes should result because of the extra book-keeping, and accounting that has to be done.

Mussolini declares he never made a mistake since he became leader. How could he when everything he does is right because he did it?

From a military viewpoint the two greatest disappointments in recent history are the Russian steam-roller and the Ethiopian big rains.

Even with increased taxes, the federal government expects a deficit of over a hundred million dollars. For many years the federal authorities have been setting a bad example before provinces which they admonish to balance budgets, but heavy relief payments and huge operating losses on the C.N.R. make it impossible for the federal government to set the proper example.

Mrs. Gostick, M.L.A. told a Calgary audience she admires Major Douglas' principles, but added that "he is a theorist." If he is more than that he has given no practical evidence of it when his first and best opportunity offered in Alberta.

It does not always happen. When implement tariffs were reduced under the Washington treaty the prices of implements were raised in Canada. Now, Mr. Dunning makes another reduction, but the prices did not go up again.

Public enemy No. 1 (Karpis) has been apprehended at last, after holding the title for a long time. There must be good hiding places in the United States, or else he must have had a stand-in with police or law officers of the State.

On Victoria Day holiday, May 25th, at the Elks' annual celebration, the Vulcan softball team won two games to gain first money in the softball tournament. Vulcan first played a team named Buffalo Hills, a bunch of "hill-billies" that came more from Reid Hill than Buffalo Hills. Wherever they came from, in any case, the only Buffalo they ever saw was on a five-cent coin from across the border. They were easy pickings for the locals, who took them to camp with a 9-2 score. In the second game, Vulcan played a team from Ensign district. Again it was a "free-ride" around the bases the entire length of the game for the Vulcanites. The score ended 15-5 in their favor.

CORONATION DATE

H. M. KING EDWARD

Who, it is announced, will be crowned in Westminster Abbey on May 27th, 1937. Ancient pageantry will be observed on the occasion. The King, on Tuesday, held his second levee since his accession.

you shouldn't miss**WAKE UP YOUR
LIVER BILE—****And You'll Jump Out of Bed in the
Morning Rarin' to Go**

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, rank and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

TREASURE HUNTERS . . . When prospectors and miners took to the air, mining in Northern Canada began its greatest development. A-1 pilots, dependable aircraft and quality gasoline and oils make northern flying safe. (90 out of every 100 miles flown in Canada are travelled with Imperial Oil products).

HIGHWAY BEACONS . . . Wherever you drive you will see the 3-Star Imperial Sign. If it could speak it would say to you, "I mark a place where everything will be done to serve you well." Get the best out of your car with Imperial Gasoline (3-Star or Esso) and Marvelube Motor Oil. While you are in the station find out about Atlas Tires and Atlas Batteries. If you need tires or batteries the Atlas Brand will save you money.

FARMING IN A BIG WAY . . . Farmers like Imperial Oil products. One Alberta farmer, who for years has used only Marvelube Oil in his tractor, decided that the eight-year-old machine would need new pistons and cylinder sleeves, but when the machine was taken down it needed only new piston rings. "I honestly think your Marvelube has had a great deal to do with the life and performance of this tractor," he wrote.

ANNOUNCEMENT

Reserve the King's birthday, June 23 for the Blackie ball club's sports day. Baseball, softball and field sports at the diamond. Dance in the evening. Full program in next week's paper. 22-1-c

VULCAN HAPPENINGS

Now's the time to pay your subscription.

Miss Margaret Wellman of Blackie was a week end visitor in Vulcan at the home of Mr. and Mrs. G. N. Speer.

Mr. and Mrs. B. D. Lockhart were holiday visitors with friends at Warner, Alta.

The ladies of St. Aldhelm's Guild will hold a strawberry shortcake tea during the third week of June. Watch for the date.

G. N. Dick Speer left Thursday morning on a business trip to Edmonton. It is understood that he is severing his business connections in Vulcan.

Ms. and Mrs. Wm. Scott of Drumheller were holiday visitors in Vulcan, guests at the home of the latter's parents, Mr. and Mrs. G. McQueen.

Mr. and Mrs. Guy Denbigh, Miss Joyce Denbigh, accompanied by Miss J. Schenck were visitors at Macleod and other Southern Alberta points during the week end.

A convention of local bartenders was held on Tuesday afternoon, following a busy day Monday. It is understood that no business was transacted.

Mr. and Mrs. Roy Walker returned late Tuesday from a week end visit to Leduc, Sask. On the return journey they were accompanied by Mrs. C. Nesbitt, who will visit in Vulcan at their home.

Messrs. Kyle, Thomas, Thompson, Johnson and Evans of the Canadian Bank of Commerce staff, Vulcan, attended a week end golf tournament sponsored for Alberta branches of the bank held in Red Deer.

As the Girls' Sewing Clubs of Red Cross and Union Jack the thanks of the Vulcan Municipal Hospital Board and staff is extended for the gift of \$15.00. This sum was used for the purchase of dressing gowns for the use of the patients. The efforts of the girls is greatly appreciated by Miss Macleod.

Jasper Bogue, with wife and family, arrived in Vulcan Tuesday evening to begin his labors as associate minister of the Church of Christ in Vulcan and Provincial Evangelist for the Churches of Christ in Alberta. "We are looking forward to knowing everyone with pleasure and are anxious to take our places in the community life," says Mr. Bogue. Mr. Bogue will preach next Sunday at the Church of Christ at the regular hours. His morning subject will be "Our Fellowship With Christ," and evening subject "The Completeness of Christ."

CARD OF THANKS

The Vulcan School Board and the staff of the Vulcan schools wish to thank the following persons for the use of their automobiles in transporting the children to the district musical festival: R. L. Elves, C. S. Evernden, J. G. McPherson, G. Spaeth and B. Lemmings for use of vehicles on Thursday; C. C. Rebbe, J. D. McLaggan, D. C. Jones, L. H. Jones, Rev. McPherson, Mrs. Robson, S. Tuttle, E. G. McPherson, L. H. Greene, Mr. Myers, J. Wolfe, D. Jantzie, O. A. Craig, Const. Naylor, E. King, F. M. Anderson, C. Kettleton, R. L. Elves and A. Haga for use of vehicles on Friday. The Board extends thanks to Mr. R. H. Weale as leader of the High School chorus and to Mrs. (Dr.) W. W. Almond for piano accompaniment on both days.

Mr. and Mrs. W. G. Brown were holiday week end visitors with friends and relatives at Red Deer.

Mrs. Paul Wittock left on Tuesday evening for an extended holiday to Portland, Ore., and other points in the United States.

Allan McAskile left on Wednesday evening for Edmonton, where he has accepted a position with the Dominion Rubber Company.

Miss Agnes Spence is visiting at Medicine Hat with her parents, commencing from a recent illness and operation.

Mr. and Mrs. W. B. Miller from Tacoma, Washington, are Vulcan visitors at the home of Mr. and Mrs. J. N. Owigans.

Paul Montgomery met with a painful accident during seeding operations. He had his knee thrown out of joint that necessitated his confinement at home.

A few fields of wheat in the Alston district have been re-seeded due to destruction of wire-worms. However, this danger has been stopped with the heavy rains. Grasshoppers have made their appearance in small numbers.
